Catch, hold, and slowly eat your way across 60 levels of increasingly sophisticated pixel art action. Although you're a pixel, you've got the moves of a pro, and you'll look cute doing it. Run into a pot, eat some poops, collect stamps, and make your way to the finishing line. But don't get too comfortable. The clock is ticking as you slowly eat away the last of your pixels! You can also play in two different modes: Classic and Hard Mode. Classic mode lets you go for a more casual style, so don't get too hung up on making a perfect score. And, Hard Mode lets you keep pushing it, pulling off sickly-fast combos, and getting really efficient at it. You'll also enjoy a selection of different characters and poops that will let you show off your unique style. FEATURES: \* All the Crazy Mayhem of New Game + \* 60 Levels to Eat and High-Speed Combo-a-Thon! \* 2 Game Modes: Classic and Hard Mode \* All sorts of Stickers, Trophies, and Achievements \* Incredibly Fun to Play What's New

----- Tired of making small poops? Now you can make medium and jumbo poops! But is it worth it, or is it just more of the same? -----

We've got a new way to earn stamps. When you make a poo, you'll start earning stamps. These are added to your Stamps meter, which you can see on the Summary screen. The more poos you make, the more stamps you'll earn. When you get to the maximum amount of stamps, you'll open up a new flag on the current level. If you manage to get it all, you can move to the next level. If you need more, just eat some more! This is not a way to earn more poops at once. Once you've eaten enough of your current poo to open up the flag, you can't eat more unless you make a different type of poo.

----- We're adding a new feature to make life easier: the Rank Mode

---

menu. Just tap to choose Rank Mode from the menu. It's exactly the same as the old menu, but now it's much easier to find the right button to press. c9d1549cdd
